Five Tips for Hosting a Successful Workshop

Whether you are teaching pottery or personal finance, a well-planned workshop keeps participants engaged. Here are some suggestions.

1. Limit the size. Groups of 12 to 15 allow every participant to ask questions.

How may we help you?	A large oak tree in my backyard has several broken branches after last week's storm, and some of them are hanging over my neighbor's fence. I would like someone to remove the damaged branches and check whether the tree is still healthy.

Neighborhood Reviews: Greenleaf Lawn & Garden

★★★★★

"Fast, careful, and friendly"

I submitted a request online, and the very next morning a specialist came to look at my oak tree. Two days later, a crew removed all of the broken branches. Mateo Ruiz, who had inspected the tree, stayed for the entire job and explained each step. What impressed me most was that the crew used a small crane so that no branches fell into my neighbor's yard. I will definitely use Greenleaf again.

★★★★☆

My husband and I visited last Friday to try the new autumn menu. The risotto was the best I have ever had—rich and perfectly cooked. The soup was a little too salty for my taste. Our server, Daniel, described every dish in detail and recommended the dessert, which turned out to be wonderful. We will be back soon.
