Hello,

I bought a tent from your Web site on July 30 for a camping trip with my wife and our two children, and we used it for the first time last weekend at Lake Corrine. Overall, it performed very well. It stayed completely dry during a heavy storm on Saturday night. However, the zipper on the main door broke on Sunday morning, even though we had always opened and closed it carefully.

I would rather have the zipper repaired than exchange the tent, since the kids loved it, along with the separate ground sheet that came with it. We are planning another trip in early October, so I hope it can be fixed before then. Could you tell me how to send it to you? Also, I was charged $12 for shipping, which I had not expected.

Granton Museum Reopens Historic Wing

GRANTON (May 5)—After nearly two years of restoration work, the east wing of the Granton Museum of Art will reopen to the public on Saturday, May 24. The wing, which was built in 1891 as the city's first public library, had been closed since engineers found that its roof could no longer safely support the weight of heavy snow.

The restored wing will house the museum's collection of nineteenth-century landscape paintings, many of which were kept in storage during the project. The $3.2 million restoration was paid for mostly through private donations. A new gallery on the lower level will feature rotating exhibitions by artists from the region, beginning with photographs by Granton native Elise Varga.

Admission to the east wing will be free during its opening weekend. After that, it will be included in general admission, which costs $14 for adults. Museum members are invited to a private preview on the evening of Friday, May 23.

Hello,

Our order arrived this morning, which was sooner than I had expected. We go through a great deal of paper because we print appointment reminders for patients who prefer not to receive them by e-mail. Unfortunately, the toner cartridges are not the right model. When I placed the order, I selected the LX-200, but our office manager has since told me that our printer requires the LX-250. Could you exchange the two cartridges? I have not opened either package.

I also noticed that the 5 percent discount was not applied to our order, even though our clinic has had a business account with you since last year.

Dear Ms. Delgado,

Thank you for your message. I have confirmed that your clinic's business account was not linked to this order because it was placed while you were signed in under a personal login. I have now applied the discount, and the difference will be refunded to your card within three business days.

The LX-250 costs $91.00 per cartridge, so the exchange adds $14.00 to your order; this amount will be deducted from your refund. Our driver will deliver the new cartridges and collect the original ones on Monday. Please keep them in their packaging, as we can accept returned toner only if it is unopened. I have also added a note to your account so that future orders placed under either login will receive the discount automatically.
