Small Roaster, Big Plans

By Helen Marsh

When Aiden Clarke opened Copperfield Coffee Roasters in a converted garage in 2016, he sold his beans only at weekend farmers markets. Today, the company supplies more than 120 cafés and grocery stores in three states, and its products are sold online throughout the country.

Mr. Clarke credits much of the company's growth to a decision he made in 2019. Instead of buying beans through importers, he began working directly with small farms in Colombia and Ethiopia. — [1] —. Although the change required him to travel abroad several times a year, it allowed Copperfield to pay farmers higher prices while keeping its own costs stable.

The company's popularity has created a new challenge: space. — [2] —. Copperfield's roasting facility on Dunmore Road, which it moved into in 2020, is already operating at full capacity. Next spring, the company will move to a building in the Eastgate business district that is three times larger. — [3] —.

Mr. Clarke says the new facility will also include a small café and a training room where baristas can take classes. "We started by talking to customers face-to-face," he said. "I want to keep doing that, even as we grow." — [4] —.

Dear Ms. Petrova,

Thank you for your order. I am writing because one of the main dishes in your package, roasted lemon chicken, will not be available on June 13, as our supplier cannot deliver the ingredients that week. We would be happy to replace it with grilled salmon at no extra cost. Alternatively, you may choose any main dish from our Celebration Dinner menu for an additional $4 per person.

As you requested, all dishes will be clearly labeled, and we will prepare vegetarian portions for the guests you mentioned. Please let me know your choice by June 10 so that our kitchen has enough time to prepare.

Best regards,
Jamal Wright

Good machine, confusing setup

★★★☆☆

I bought this purifier for my 55-square-meter living room after reading several positive reviews. It is quiet and has noticeably reduced the dust in the room. However, connecting it to my phone took nearly an hour, and the instructions in the box were not very helpful. I eventually found a video on the company's Web site that explained the process. —Rachel Okonkwo, October 4
