Local Bike Maker Shifts Gears

By Teresa Huang

FAIRVIEW (October 20)—For more than 30 years, Corwin Cycles has built racing bicycles by hand in a small factory on Elm Street. Now the company is making a change: by next spring, half of its production will be devoted to electric bicycles. — [1] —.

"Our customers are getting older, and many of them still want to ride long distances," said company president Nadia Corwin, whose father founded the business. "Electric bikes let them do that." — [2] —.

The company has hired four engineers who previously designed batteries for a car manufacturer. The new models will be priced between $3,200 and $4,500, somewhat higher than the company's racing bikes. — [3] —.

Ms. Corwin admits that the shift is a risk. Several larger brands already sell electric bicycles, and Corwin Cycles will not be able to match their prices. Instead, she plans to compete on quality and service, offering free repairs for the first two years. — [4] —. From: Rafael Duarte

Date: December 4

Subject: Order #LH-55812

To whom it may concern:

On November 20, I ordered a set of four Arlo pendant lights from your Web site. The order arrived yesterday, but only three of the lights were in the box, and one of those has a cracked glass shade. The packing list shows all four lights, so I believe the missing one was never packed.

I am renovating my kitchen, and the electrician is scheduled to install the lights on December 12. If I cannot get two replacement lights before then, I will have to reschedule the electrician, who is booked for most of January.

Hello,

I'd like to book a private room for a dinner to celebrate my parents' 40th wedding anniversary on Saturday, October 18. We expect 24 guests. My parents loved having dinner outdoors at your hotel last summer, but I realize that may not be possible in October.

My father cannot eat dairy products, so we would need a menu that takes this into account. Also, several relatives will be traveling from out of town and staying at the Greystone that weekend. Is there any way to arrange a dance floor for a smaller group?

Oakdale Library Launches Tool Lending Program

OAKDALE (February 3)—Starting next month, Oakdale Public Library cardholders will be able to borrow more than just books. The library's new Tool Library will lend out power drills, ladders, garden equipment, and about 200 other items, free of charge.

The program was the idea of librarian Kevin Marsh, who saw a similar program while visiting a library in Toronto. It is funded by a grant from the Oakdale Home Improvement Association, whose members also donated many of the tools.

Items can be borrowed for up to one week. Borrowers must be at least 18 years old and must attend a 30-minute safety session before borrowing any power tool. Sessions are held every Saturday at 10 A.M. The Tool Library will be located in the basement of the main branch on Center Street.

March 22

Dear Mr. Marsh,

I want to thank you for the Tool Library. Last weekend I borrowed a tile cutter and a ladder to redo the floor in my bathroom, something I had been putting off for over a year because I didn't want to buy tools I would use only once. The staff member at the desk was very helpful in showing me how to adjust the cutter.

I do have one suggestion. I had to wait until Saturday to take the safety session, which delayed my project by almost a week. Offering the session on a weekday evening would make the program even more useful for people like me who work on weekdays.

With appreciation,
Gloria Meyer

Subject: Your review

Dear Ms. Novak,

Thank you for your kind review. I am sorry about the front office. Our manager had to close it unexpectedly that day due to a family emergency, and we failed to post a notice. We have since hired a second staff member so that this will not happen again.

As a thank-you, I would like to offer you free fishing equipment rental on your next visit. We have also upgraded our Internet service, so I hope you will find it much improved.

Warm regards,
Martin Hale, Owner
